EverFlo

Home oxygen system

# Oxygen simplified

# Ideal. Oxygen. Concentrators.

For you and your patients.

## EverFlo concentrators can reduce the cost of oxygen therapy.

Philips Respironics recognizes the growing need for cost-effective and reliable oxygen concentrators that can help you manage the cost of providing oxygen therapy. That's why we have EverFlo, a series of forward thinking oxygen products designed to simplify your oxygen business.

### Expect industry-leading quality and reliability

EverFlo stationary oxygen concentrators can save you time and money over the course of ownership because of their design and quality. Field proven since 2007, there have been more than 2.5 million EverFlo units sold worldwide.\*

Assembled in the United States and backed by our deep design knowledge, EverFlo is developed using only high-quality parts. With a recessed flow meter, metal cannula connector, strong plastic casing, proven sieve bed, and Pressure Swing Adsorption (PSA) technology, you may notice a reduction in repairs, complaints, and unscheduled visits.

### Enjoy ease of service

EverFlo was designed keeping maintenance costs in mind. For example, EverFlo has just two filters. The external filter can be changed in minutes without special skills or tools and the internal micro disk filter is simply checked during routine maintenance procedures.

### Differentiate your business

EverFlo concentrators are backed by value-added tools. From in-person and online training to financing options, you have what you need to succeed. And, since Philips Respironics offers a wide range of sleep and home respiratory products and comprehensive support, we can be the source for many of your product needs.

\*Data on file Philips Respironics 2017

### Easy to store, transport, and deliver.

EverFlo is compact, has a streamlined and integrated handle, and weighs only 31 pounds. Less weight means EverFlo is easier to move around and can translate into lower shipping costs.

### Give your patients what they want.

At just 31 pounds, your patients will appreciate the compact, non-medical design of the EverFlo oxygen concentrator because it will fit right into their home environment. The unit is designed to be small, light, easy to transport and will fit into the trunk of a car. EverFlo has an easy-to-mount humidifier bottle connection and no patient filter.

**Metal cannula**  
Connector for greater durability

**Molded handle**  
that's easy to pick up and transport with one or both hands

**Interface panel**  
with on/off switch and alarm indicators

**Recessed flow meter**  
reduces the risk of breakage

**Internal tubing storage**  
keeps tubing conveniently available for use

**Humidifier bottle holder**  
compatible with all bottle styles

# Specifications and ordering information

## EverFlo product specifications

Input voltage	120 VAC +/- 10%
Input frequency	60 hz
Average power consumption	350 watts
Oxygen concentration* (at 5 lpm)	93% (+/- 3%)
Liter flow	0.5 to 5 liters per minute
Weight	31 lbs (14 kg)
Sound level	45 dBA typical
Dimensions	23" (584 mm) h, 15" (381 mm) w, 9.5" (241 mm) d
Required maintenance	Compressor intake filter: change every 2 years
OPI (oxygen percentage indicator) alarm levels	Low oxygen: 82%, very low oxygen: 70%
Operating temperature	55°F to 90°F (12°C to 32°C)
Storage/transport humidity	-30°F to 160°F (-34°C to 71°C) up to 95% relative humidity
Operating humidity	Up to 95% relative humidity
Outlet pressure	5.5 PSI
Operating altitude	0 to 7,500' (0 to 2,286 m)
